

Number Skills Class list Blackline #8

Grade _____ Teacher _____

Write the student number and names down the side.

If you have a split class, make two sheets, one for each grade.

Write each skill in the squares along the top.

Put an underline in the square if the student gets one right (they know the concept but need practice)

Put the number of the month (eg. 9 for September) in the square when the student does both questions correctly.

First Week of School. Class List Math Blackline Master # 8
Use to record number skills..
